

Navyug[®]
INDUSTRIES|Enterprises

About Us

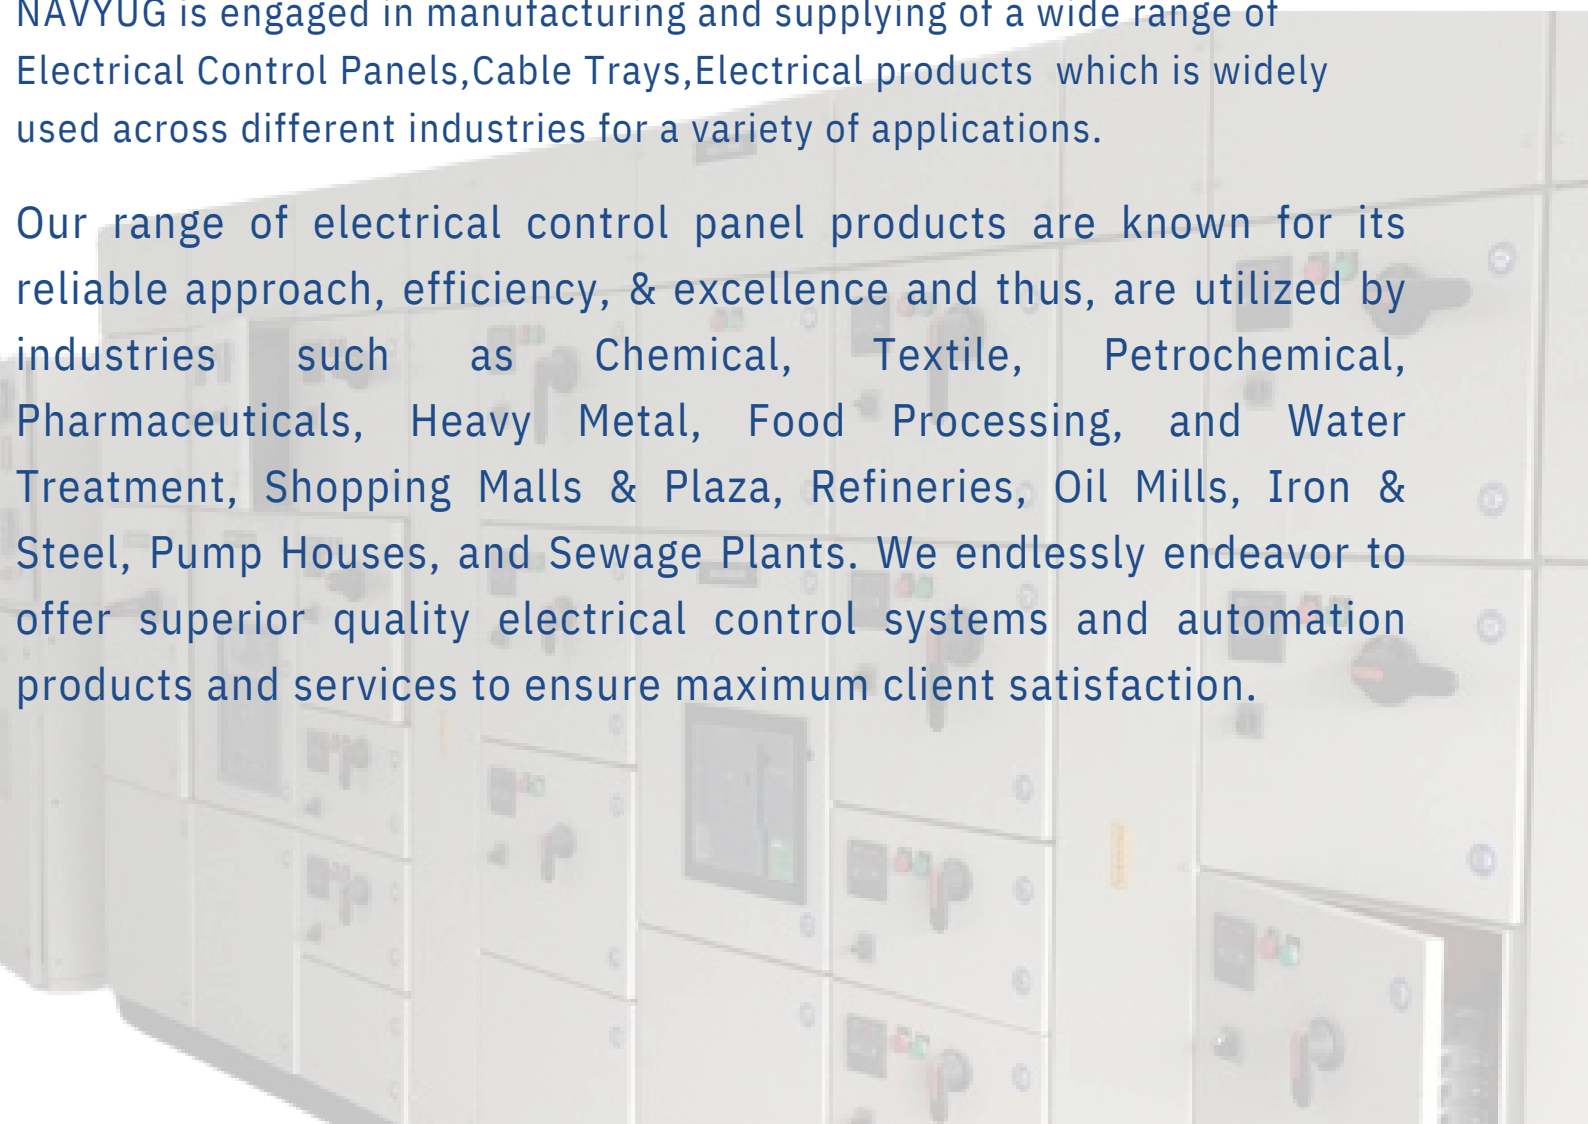

Founded in 2000 by Mr. Ruchin Jindal (B.Tech, Electronics) Navyug Industries/Enterprises, has grown leaps & bounds and is recognized as one of the leading manufacturers of Electrical Switchboards and Trader for Commercial Electrical Products in Punjab. The promoter of the company have over Two decades of extensive experience in the field of electrical industry that enables us to comprehensively understand the changing demands of the market and provide customized solutions.

Industries we serve

NAVYUG is engaged in manufacturing and supplying of a wide range of Electrical Control Panels, Cable Trays, Electrical products which is widely used across different industries for a variety of applications.

Our range of electrical control panel products are known for its reliable approach, efficiency, & excellence and thus, are utilized by industries such as Chemical, Textile, Petrochemical, Pharmaceuticals, Heavy Metal, Food Processing, and Water Treatment, Shopping Malls & Plaza, Refineries, Oil Mills, Iron & Steel, Pump Houses, and Sewage Plants. We endlessly endeavor to offer superior quality electrical control systems and automation products and services to ensure maximum client satisfaction.

Our Mfg. Product Range

Servo upto 5000KVah

Main LT Panel PCC (Power Control Center)

Ac Drive Panel

PLC Base Panel

AMF Panels

Fire Pump Panel with Engine Control

MCC (Motor Control Center)

Control Desk

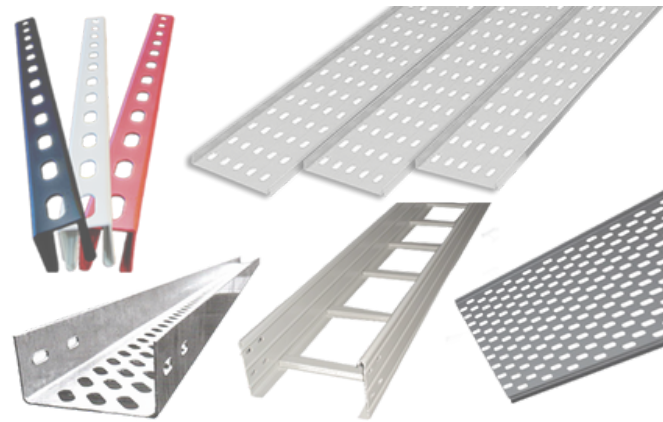

Capacitor Panel (APFC)

Feeder Pillar

Bus Ducts & Rising Mains

Galvanized/Powder Coated Cable Trays

Junction Boxes & PDBs

Foremost in quality of workmanship and investment in “state of art” technology to manufacture LT Switchboards, we have established ourselves as a symbol of quality and innovation in this field. The Design and Engineering department is well equipped with Computer Aided Design (CAD) systems and drafting facilities for accurate and quick preparation of design and execution.

Salient Features+

- Cost-effectiveness
- Well designed manufacturing unit
- Timely delivery of goods
- Computer Aided Design (CAD) systems
- Customized production facility
- Anti corrosion treatment
- Surface Treatment & Powder Coating Plant
- Painting in dust & vermin proof paint booths & ovens
- Non hygroscopic SMC bus bar supports for best mechanical & electrical strengths for fault current withstand
- Bus bars and interlinks are insulated with heat shrinkable PVC sleeves
- Provision for future expansion of busbar on both sides or as per requirement.
- All live parts are shrouded with polycarbonate sheets

All Panels are fabricated with G.P (Galvanized Plain) Sheet for Antirust Life. 24 / 7 After Sales Support
